Students who have *exceeded the maximum time frame* for their degree or certificate **OR** *have already completed a degree* may (under limited circumstances) file this appeal for federal aid reinstatement. Upon approval, only courses required to complete the student's program of study will be considered for federal student aid.

- Maximum Time Frame:** Federal law requires colleges receiving Title IV funds to establish financial aid academic progress standards based on federal regulations. These regulations require students to complete a degree (or certificate) within a maximum number of attempted hours. **At GCCC a student is expected to complete a 60-credit hour program within 90 credit hours (or 150% of their program length).** If a student has not received an associate degree after attempting 90 credit hours (or within 150% of their certificate program length), the student is ineligible for federal financial aid, *regardless of whether she/he has received financial aid for any/all of those semesters.*
- Degree Completion:** Students who have already attained a degree are eligible for additional assistance only under limited conditions. **A second major does not necessarily mean a new degree or certificate.** If the student is returning to receive another major within the original associate degree program (AS, AA or AGS) the student **cannot** receive additional Title IV aid for those courses. Students can attain more than one Applied Science (AAS) degree at GCCC.

Checklist: Appeals will be reviewed only if all relevant information is submitted:
