

YOU CAN GO ANYWHERE!

Some people say community college is a joke – it's not. After three semesters at GCCC, I completed a degree evaluation at my transfer university and found out I was already halfway to my bachelor's degree. At GCCC, I've gone to school absolutely free and actually made some money, too. Don't blow junior colleges off – they're so worth it!

“ Taking GCCC classes as a high school student gave me a huge head start. I had over 20 college credits when I graduated high school and entered GCCC freshman year. I was able to move on to Fort Hays State University a year early and focus on more advanced classes my second year.

“ As a dual-sport athlete, taking online classes gave me flexibility. Between volleyball and track & field, I was super busy and on the road a lot. Missing that much time in class would have hurt my grades. But being able to work on my own schedule made a huge difference for me. I even finished my last semester at GCCC with a 3.9 GPA.

As an international student, I came to GCCC from Turkmenistan to explore American culture. As a residential life advisor, I've met all kinds of people on campus. These people – my classmates, my friends, and my instructors – have become so important to me. They've always made me feel like home here.
