Bradley Sisk

### **Members Absent:**

None

### **Issues:**

- I. Minutes: Minutes approved as amended.
  
- II. Workshop dates for Spring Assessment: Great attendance, we saw around 30 faculty members. A lot of adjuncts came in and got questions answered. We want to continue to offer these types of Zoom work sessions. Adding some evening sessions will help reach out to more adjuncts. Over all it has been a very good experience. Sam is planning on working on informative videos about assessment over the summer that will be available for all instructors.
  
- III. In-service for fall: We will get together a couple of times before the fall semester starts through Zoom. We plan on having more informative trainings for instructors in the future. When working on collaborative reports faculty should discuss together their ideas and keep a recording in meeting minutes for HLC records. It would be interesting to have interdepartmental cooperation with assessment.
  
- IV. Program Assessment: When thinking of program assessment, we may need to move away from just thinking about sophomores and think about students that are working at the end of the

program level. We need to use our curriculum maps and where we marked mastery as the guide for our assessment.

- V. Accountability checking: It would be helpful to get the accountability file for spring done over the summer and show off the results in the in-service workshops. Sam plans on working on this file, maybe discussed further in future meeting.
