**II.     Gen Ed Report (Chris):**

The next update to faculty will come in January.

**III.    Curriculum Map Update (Sam):**

Resource constraints have resulted in the suspension of work on revisions to the curriculum map for the 20-22 catalog.

GCCC programs should focus on looking at program Learner Outcomes to tweak, make incremental improvements and verify that they are aligned with their current program curriculum map.

**IV. Technical Skills Update (Brandy):**

Technical programs are working on a similar format for Technical Skills to the existing Essential Skills being utilized with academic programs.

The plan is for this work to be presented to SLAT at the next meeting with a set of draft rubrics. These draft rubrics are being piloted right now. The next step is to have all technical areas work through each rubric.

**V. Non-Academic Plan Revision:**

The committee worked on developing an indirect measure for the Assessment Department plan focused on educating faculty and employees on the assessment process. The discussion centered on whether the indirect measure should focus on understanding the process or execution of the process.

**VI. Newsletter:**

The newsletter was distributed to faculty by Marc Malone.

Focus for the spring '21 semester workshop is to review methods for targeting/selecting SLOs and developing Indirect Measures.

**VII. New Business: None**
