### **Members Present:**

### **Members Absent:**

None

### **Issues:**

- I. Minutes: Minutes were approved.
- II. Accountability tracking: SLAT members are still working on the accountability file. We need to also check that program plans have been submitted. Reminders for missing program level plans are more beneficial than for other plans. Plans at the course level are more for the benefit of each instructor. In the future, only a small number of plans may need to be submitted.
- III. BOT report (recap): The report went well; all presenters did an amazing job. The report was well received. The board members did a great job at giving follow up questions. It was a very productive conversation. Board members were very grateful for all work being done on assessment by SLAT and all faculty. No, comments came from the email sent by Marc Malone to faculty with regards to the BOT report.
- IV. New business: Please encourage people to attend the meeting this Friday with Marc, the meeting will focus on how degrees are defined here at GCCC. Both of Marc's meetings should be attended by as many faculty as possible.  
Chris mentioned we need to refresh with faculty how to pick proper measures and assessment tools for assessment.  
Sam is working with Marc on a faculty handbook, SLAT members need to send her topics that should go on it.

### **Next Meeting:**
